Congress Committies .....	7
Plenary Talk, Gottardi Awarder's Talk, Weyl Awarder's Talk .....	9
Invited Speakers .....	13
Glass Science .....	15
Glass Structure .....	29
Glass Surfaces .....	43
Other Properties .....	49
Crystallization .....	59
Optical Glass and Optical Properties .....	73
Glass Chemical Durability and Safety of Nuclear Power Plant .....	91
Computer and Structural Modelling .....	97
Mechanical Properties .....	105
Biomaterials .....	113
TC16 – Nanostructured Sol-Gel glasses .....	121
TC6–TC7–TC8 – Topological Principles in Glass Science .....	127
TC20 – Photonic Glasses .....	135
TC17 – Archaeometry of Glass .....	149
TC05 – Waste Glass Chemistry .....	157
TC05 – Waste Glass Structure and Characterization .....	163
TC05 – Waste Form Processing .....	169
TC06 – Indentation and Nanoindentation .....	175
TC26 – Student Project Outcomes (ICG Summer School) .....	181
TC11–TC13–TC14–TC15–TC18–TC21 – Glass Trend .....	185
Refractory materials .....	187
Melting Process Modelling .....	193
Melting Studies .....	201
New Melting Concepts .....	207
Redox Equilibria .....	211
Batch Melting Kinetics .....	217
Waste Glass Treatment .....	223
Combustion Process .....	229
Furnace Design and Waste Heat Recovery .....	235
Glass Forming .....	239
Analytical Techniques .....	245
Poster Contributions .....	251
Author Index .....	313
